DETAILED ACTION

This action is responsive to the appeal brief filed 19 June 2006. Claims 1-19 are currently pending.

Response to Arguments

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Applicant's argument (b), see pages 5-6 of the appeal brief filed 19 June 2006, with respect to claims 1, 7, and 13 has been fully considered and are persuasive. The rejection under 35 USC §102(b) of claims 1, 7, and 13 has been withdrawn.

Allowable Subject Matter

Claims 1-19 are allowed. The following is a statement of reasons for the indication of allowable subject matter:

Independent claims 1, 7, and 13 include the limitation "displaying a first user dialogue to receive a master key value from a user, said user dialogue being displayed in a position so as to overlay said original entry point for a password as displayed by said requesting application program." In contrast, the prior art of Nielsen (US Patent #6,182,229) discloses a system in which a master password is entered prior to any website being accessed, and then suppressing the appearance of password entry fields

in websites rather than overlaying a dialogue box. Thus, claims 1, 7, and 13 are novel with respect to the disclosure of Nielsen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
